

UNIT – III

VR Programming

VR Programming – Toolkits and Scene Graphs – World
ToolKit – Java 3D – Comparison of World
ToolKit and Java 3D.

3.4)COMPARISON WITH WORLD TOOLKIT (WORLD TOOLKIT NOT WIDELYRECOGNIZED):

It seems there might be a slight misunderstanding or miscommunication regarding the term "World Toolkit." As of my last knowledge update in January 2022, there isn't a widely recognized graphics or 3D library/toolkit specifically known as "World Toolkit" in the context of programming or software development. If "World Toolkit" refers to a specific tool or library, please provide additional details or context so that I can offer a more accurate comparison with Java 3D. If you have a different toolkit or library in mind, let me know, and I'll do my best to provide relevant information.
