

On 13<sup>th</sup> March 2026, Students from our department actively participated in the **Technical Symposium** organized by **Cape Institute of Technology**. They competed in various events such as paper presentation, quiz, and non-technical competitions.

Our students performed excellently and secured prizes, bringing pride and recognition to our department and institution. **S. Mehrin Kadhija** won the **First Prize in a Non-Technical Event**.

Participation in such events helped the students enhance their technical knowledge, communication skills, and overall confidence.

We express our sincere gratitude to the esteemed leadership of our institution, including the **Chairman, Pro-Chairman, Managing Director, and Principal**, for their support and approval that enabled the students to participate in this event. Their encouragement and guidance played a vital role in the students' achievements.

The department continues to motivate and support students to participate in academic and technical events, as they provide valuable exposure and learning opportunities.
