

The Department of Computer Applications organized a **four-day Skill Development Program** on the topic “**JavaScript**” from **23rd February to 27th February 2026**. The program was successfully conducted under the guidance of two experienced resource persons, **Mr. Suresh**, Marcellotech, Tiruchirappalli, and **Mr. Arunkumar**, Marcellotech, Tiruchirappalli.

The **first two days** were handled by **Mr. Suresh**, who focused on building a strong foundation in JavaScript by covering core concepts. The sessions were highly interactive and included live coding demonstrations, practical exercises, and real-time problem-solving activities. The trainer ensured that participants clearly understood the fundamentals before moving on to advanced topics, thereby strengthening their programming skills and logical thinking abilities.

The **next two days** were handled by **Mr. Arunkumar**, who emphasized advanced concepts and practical implementation, including DOM manipulation, event handling, and an introduction to frameworks such as React and runtime environments like Node.js. He guided participants in developing mini-projects and a final project, encouraging teamwork and creativity. Both resource persons provided continuous support, clarified doubts effectively, and

motivated learners to explore real-world applications of JavaScript, making the program informative, engaging, and highly beneficial for all participants.

On behalf of the Department of Computer Applications, we extend our heartfelt thanks to our **Chairman Sir, Pro-Chairman Sir, Managing Director Ma'am, and Principal Sir** for their constant support in organizing such skill-enriching sessions. A special note of gratitude is extended to our **Chief Guests, Mr. Suresh and Mr. Arunkumar**, for taking time from their busy schedules to share their expertise and guide our students toward a better professional future.
