

XenotroniX - CSE Department Association Day

Inauguration

The department of computer science and Engineering association inauguration event, held on August 8, 2023. This event was graced by the presence of distinguished guests, including our esteemed Chief Guest, Dr.Grasha Jacob, along with the Chairman, Pro Chairman, Managing Director, and Principal of our institution. Their presence added prestige and honor to the occasion, setting the stage for an unforgettable day of celebration and enlightenment.

The inauguration ceremony, marked by unity and purpose, was followed by a captivating guest lecture on "Algorithmic Problem Solving." The lecture delved into the intricacies of effective problem-solving through algorithms, igniting intellectual curiosity and inspiring innovative thinking among the attendees.

Dr. Michael Revina, the Association Coordinator, took the stage to present an overview of the association's upcoming plans. Her insightful report outlined the direction and vision for the year, sparking anticipation and excitement for the enriching activities to come.

A Day of Exploration: RCET CSE-B Students Engage in Industrial Visit and Coastal Adventure

March 8th, 2023, was a day of diverse experiences for the Computer Science and Engineering (CSE-B) students at RCET. On this day, they embarked on a dynamic journey that included an industrial visit to Indian Rare-Earths Limited, Manavalakurichi, followed by an exploration of the serene Lemur Beach, Ganapathipuram. This combination of industry and coastal beauty offered students a well-rounded day of discovery and relaxation.

The industrial visit to Indian Rare-Earths Limited provided students with an insightful glimpse into the operations of a rare-earth minerals processing facility. The visit offered them the opportunity to observe the extraction, processing, and utilization of rare-earth minerals—a crucial component in various technological applications. This hands-on experience allowed students to connect theoretical knowledge to practical applications in the field of minerals and resources.

RCET Second Semester CSE B Students Embark on Educational Tour to Cape Start Software, Filter House, and Mukkadal Dam

Nothing can beat experiential learning, especially when it comes from real leaders with clear-cut visions and missions. The second semester Computer Science Engineering (CSE) B students from RCET embarked on an educational tour that included visits to Cape Start Software Company, Filter House, and Mukkadal Dam in Nagercoil.

The day began with an enriching visit to Cape Start Software Company, where the students participated in various interactive sessions and presentations focused on careers in the software industry. These sessions were led by industry experts who shared their knowledge and experiences, providing the budding engineers with a memorable and inspiring look into their future career paths.
