

EVENTS DETAILS 2018-19

Guest Lecture on FOURIER ANALYSIS OF DISCRETE SIGNALS

Guest Lecture on **FOURIER ANALYSIS OF DISCRETE SIGNALS** was delivered by the resource person **Mr.L.Arivazhagan, Junior Research Fellow, Karunya Institute of Technology and Science** . Students were explained to **model any arbitrary periodic signal with a combination of sines and cosines**. Also they were Taught to analyze the signals in Original Domain using Fourier Series.

Seminar on RADIATION PROTECTION ASPECTS IN NUCLEAR PLANT

Department of ECE organized a in Seminar on RADIATION PROTECTION ASPECTS IN NUCLEAR PLANT. The Resource Person of the day was Smt.LakshmiGopidhas, Senior Technical Audit Engineer, KKNP, NPCIL. She Explained the students about the Radiation Aspects in Nuclear Powerplant. On whole she summed up as: prevention, monitoring, and action (to mitigate consequences of failures).

Seminar on DESIGN OF POWER SUPPLY

Department of ECE organized a Seminar on Design of Power Supply. Expert Mr.ArulDhas, Managing Director , TECHLAB Electronics , Chennai. Explained in detail about the design of Power Supply Design from basic to crude system Design using Diodes and Capacitors along with Regulating Voltage.

Guest Lecture on STOCHASTIC ANALAYSIS OF LINEAR SYSTEM

Department of ECE organized a Guest Lecture on STOCHASTIC ANALAYSIS OF LINEAR SYSTEM The resource Person of the day was Mr.Jegatheesh, Proprietor and Tutor, ALC Academy, Nagercoil Explained in detail about themathematical models of systems and phenomena that appear to vary in a random manner.

Guest Lecture on MULTIPLEXING TECHXNIQUE

Department of ECE organized a Guest Lecture on MULTIPLEXING TECHNIQUE. Mr.G. ThiraviyaSuyambu, Asst.Proff & Head, Sreesasatha College Of Engineering, Chennai .Delivered his lecture on various method of combining

more than one signal over a shared medium .He also Explained about the different Multiplexing Techniques .
